# Bus Shelter Blitz

In the City of Los Angeles less than one in four bus stops include a shelter

Bus Shelter Blitz is a collaborative effort to engage low-income and transit-dependent neighborhoods of Los Angeles and facilitate installation and upgrades of high quality transit and public right-of-way amenities such as bus shelters. Project goal is to install 10 bus shelters in new locations, including piloting hydration stations at feasible stops, in partnership with Councilmember Martinez (Council District 6) and Pacoima Beautiful.

All proposed locations were identified by Pacoima Beautiful through an extensive and comprehensive process of outreach. Over 190+ transit riders participated in the survey/outreach process
